

COSMETIC COLLECTION

For Beauty and Well-being

MOMOTANI™
JAPAN

“BIGANSUI” is always ready to fight Acne!

The over 130 year long seller

— SINCE 1885 —

The history of “Bigansui”

In 1885, when cosmetic products were not popular, Bigansui was made by the founder of the MOMOTANI JUNTENKAN, who was a pharmacist, for his wife suffering from acne. It all began with love.

Bigansui Skin Lotion (Medicated) Men's Bigansui Skin Toner (Medicated) Bigan Facial Wash Bigan Skin Soap (Medicated) Bigan Essence

Remove neatly dullness and excess sebum
A toning pad containing plenty of lotion

Easy to use, just wipe off!

Bigansui targets acne

The Oldest Long Seller
Medicated Lotion in Japan

Medicated formula for acne
Double Active Ingredients

Salicylic Acid

Pionin

Two active ingredients sterilize acne bacteria that causes pimples. Salicylic acid softens accumulated old keratin, and pionin prevents acne suppuration, effectively work together.

Tightens the opened pore

Bigansui can tighten enlarged pores and control the sebum to lead the healthy skin.

Clears away the cause of acne

Gentle Texture with Rich Foam

The rich foam made by fine bubble and gives no burden to skin while washing.

Leaves The Skin Feeling Moist

The natural moisture essence works to moisturize skin when washing & even after.

Mild formula for acnes and the sensitive skin

Paraben free

Colorant free

Mineral Oil free

The Power of Vitamin C

C vita

Brighter skin for better feeling

#Blotches #Dullness #Stickiness and Shine #Pores #Roughness and Dryness

Vitamin C Derivative + Support-ingredients

Vitamin C Derivative

Kiwi

Anti-Pigmentation

Rose Hip

Antioxidation

Yuzu

Moisture

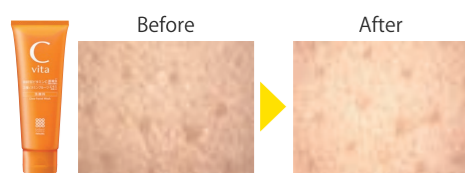

Ceramide

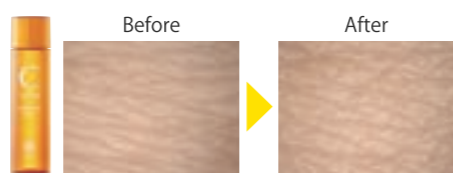

Moisture

Vitamin C Derivative provides the benefits of Vitamin C with a more effective penetration to skin. It prevents the production of melanin that causes spots and dullness and helps to reduce pigmentation. Also 3 selected fruit extracts that contain a lot of Vitamin C are common ingredients in C vita series.

To achieve transparency of skin

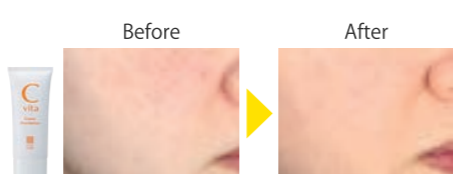

Facial Washing Test
The smooth texture, leading to brighter look.

The earlier the better

Your skin started looking dull or less elastic? When these signs of aging appear, it is time to start using anti-aging products. The sooner you start your anti-aging skin care, the more likely you are to maintain youthful skin.

HARINISTA

HARINISTA is a multi-functional anti-aging care series that delivers necessary ingredients to skin and works against different signs of aging.

Moisture Firmness Flexibility

Glow Transparency

Delivery Essence
By firmly delivering moisture deep into skin, it gives firmness and elasticity to eye and mouth areas.

Restoration Gel Cream
A shape-memory gel cream that has a soft elasticity melts onto skin and blends easily. Give shine, firmness, and elasticity to the whole face.

with spatula & inner lid

Dropper type

Efficacy tested Make Wrinkles due to dryness less noticeable

Effect for skin texture Skin moisture

Effect for skin texture
Before After ※1month
The skin texture is refined. Pores are minimized & less noticeable.

Skin moisture
239% increase in moisture level after use.

Results of continuous use for fine wrinkles

*Use Delivery Essence & Restoration Care Gel for 2weeks

Before After ※2weeks
After just 2 weeks of continuous use, fine wrinkles around the eyes have become less noticeable. **It is effective for fine lines!**

Deep wrinkles Shallow wrinkles

Magical Pore Minimizer

Vitamin C + Heart Leaf [Houttuynia Cordata]

KEANA BEAUTE targeting pore problem!

Pore Cleaner Gel

Warming gel containing scrub and charcoal powder cleanse dirt and sebum deep inside pores for clear looking skin.

Pore Cleansing Scrub Wash

It contains plant-based scrub, vitamin C and enzymes, leading skin feeling refreshed while regulating the sebum balance.

Skin Conditioning Lotion

Prevent skin problems by tightening pores and suppressing sebum. It helps improve the absorption of other skincare items.

VC10 Essense

Tighten pores and control sebum secretion while keeping skin plump and moisturized. Achieve bright, smooth, and poreless skin.

Total pore care
Highly Contained Pure VitaminC 10%

VC15 Essense

While addressing the stubborn roughness and dullness of pores, it also provides skin with a plump and firm texture, giving anti-aging effects as well.

For more serious problems
Highly Contained Pure VitaminC 15%

Horse Oil

The composition balance of fatty acids in horse oil and human sebum are very similar, so it is characterized by being easy to blend into the skin. Since ancient times, it has been used in folk remedies for treating skin problems. RICH MOISTURE series use horse oil processed from fattened horse fat in Kumamoto prefecture and gives the skin moisture without stickiness.

Horse Placenta Extract

Placenta extract extracted from the placenta of thoroughbreds from Hokkaido. It is a very rare & limited extract because they only give birth once a year. It contains a lot of amino acids which expected to improve skin elasticity and transparency.

※ Contained in lotion, cream and eye cream

EBC Lab

Take care of scalp and solve the problem of flat hair

SCALP CLEAR LINE

Flat and sticky hair

C1 MORE THAN SHAMPOO

Clean scalp and hair roots

Remove sebum that causes stickiness and smell, and lead to a healthy and clean scalp without pore-clogging.

C2 BETTER THAN CONDITIONER

Refreshing finish to scalp and hair roots

Get smooth and silky hair and achieve voluminous hair from the roots.

Prevent sticky hair and add volume to hair

- Green Tea**
Contain Tannin with tightening, eliminating smell and antibacterial action. It is effective on scalp to suppress the excess sebum.
- Houttuynia Cordata**
Variety of functions, also called as natural medicine. Soothe inflammation to condition healthy scalp.

SCALP MOIST LINE

Damaged dry thin hair

M1 MORE THAN SHAMPOO

Mildly clean the sebum and dirt

Take care of the externally damaged scalp and hair while firmly removing excess sebum and dirt.

M2 BETTER THAN CONDITIONER

Moisturizing hair and scalp

Add moisture and firmness to damaged hair, giving volume to the entire hair.

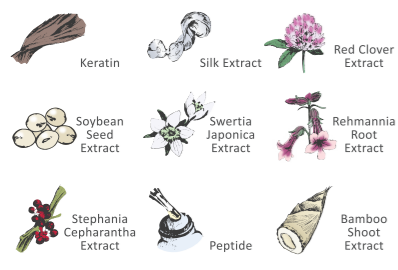

Repair the damage* to shine and increase hair volume

- GAGOME Kelp (seaweed)**
Contain Fucoidan, which holds high amount of moisture. Easily penetrate into skin/hair to moisturize. Support hair turnover cycle to produce new hair.
- Pearl**
The hydrolyzed protein of pearl. Moisturize damaged hair. Activate cell to achieve healthy scalp and hair.

* The external damage such as UV rays and dryness.

Support-ingredients for firm and thick hair

History of MOMOTANI JUNTENKAN

As many memories as there is history

The founder, Masajiro Momotani, was born in Kokawa, Kishu (Wakayama prefecture) in 1631. His family had a long history of selling pharmaceuticals. His venture into producing cosmetics started with the creation of Bigansui for his beloved wife. The company's long and distinguished history is marked by trust, performance and a bond with the customers that has been developed over the years. Until now and from here on, we promise to continue to offer the highest quality products.

1885

"BIGANSUI Acne Lotion," created by Masajiro Momotani for his wife who suffered from acne, was released.

MOMOTANI JUNTENKAN was established in Kokawa (Wakayama Prefecture) by Masajiro.

1902

"BIGANSUI Beauty Lotion" was launched.

1913

A cosmetics testing lab was established ahead of the development of the industry.

"BIGAN Soap" was released in alliance with UK-based Lever Brothers, Inc. (the predecessor to the current Unilever).

1914

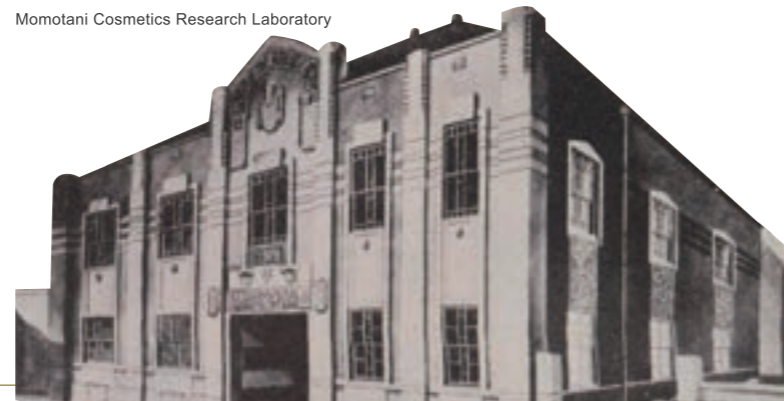

The Company had the honor of supplying cosmetics products to the Japanese Imperial family.

1918

Suifu Kishimoto, one of Japan's most renowned Senryu (satirical haiku) poets, joined the Company's advertising department. (satirical haiku) poets, joins joined the Company's advertising department.

Momotani Cosmetics Research Laboratory

1927

Masajiro Momotani was awarded the Legion d'Honneur by the French Government for his significant contribution to promoting the cosmetics industry.

1928

Masajiro Momotani was awarded the Medal with Green Ribbon and the Medal with Dark Blue Ribbon by the Japanese government for his contribution to the cosmetics industry and society at large.

1922

The Company's research laboratory, factory and sales office were relocated to Osaka, which served as the headquarters.

1932

Masayoshi Ohira (later Prime Minister of Japan) joined MOMOTANI JUNTENKAN.

"MEISHOKU Cleansing Cream" was launched, marking the start of the MEISHOKU Brand.

1936

"MEISHOKU Astringent Lotion", featuring a buffer effect, was launched. (Later its process was granted a patent.)

1959

Actresses Kyoko Kagawa and Ruriko Asaoka were used for advertising for women's cosmetics. For men's cosmetics, baseball player Shigeo Nagashima, actor Yujiro Ishihara, and professional wrestler Rikidozan were used.

1953

Ito Kinuko, Miss Universe Japan and known as a beauty with a well-balanced figure, was used for the Company's advertising.

1962

As an exclusive agency in Japan, the Company concluded a technology/manufacturing tie-up with 4711, a world-renowned German company for Eau de Cologne.

1963

"Jeunesse Enzyme Lotion" (medicated), patented in France and Japan, was launched.

1964

The placenta-essence skin care product "Tarvena Cream" was launched with technological alliance with German pharmaceutical company H.C. Starck.

1976

Actress Sayuri Yoshinaga was used for advertising of the MEISHOKU Gold Series as its image model.

1993

Shifted to group management by newly establishing three companies depending on the type of distribution channels.

1996

Seichiro Momotani (current President) became Representative Director and President of MOMOTANI JUNTENKAN.

Okayama Factory was constructed.

2005

An aesthetic salon opened.

2016

The headquarters was relocated to Chuo-ku from Minato-ku in Osaka. (A new head office building was constructed.)

Okayama Factory

2018

MOMOTANI JUNTENKAN's products were displayed in the special exhibition "A Thousand Wonders of Japanese Technology" held in celebration of the 150th anniversary of the Meiji Period. (Products displayed were BIGANSUI Acne Lotion, a medicine for fever, MEISHOKU Cleansing Cream, and MEISHOKU Astringent Lotion.)

2019

"Nikibi-tori Bigansui" is certified as a chemical heritage -Japan's very first Western medicine prescription lotion.

2020

Okayama factory obtained Halal certification, enabling the production of Halal cosmetics.

2021

We launched "HAPPINESS BEAUTE", advocating "sustainable beauty", utilizing our Halal cosmetic manufacturing line.

2022

"HAPPINESS BEAUTE", obtained vegan certification in pursuit of cosmetics that are friendly to both people and the environment.

2023

3 products of Detclear Peeling Jelly obtained vegan certification.

MOMOTANI JUNTENKAN STORY

The origin of MOMOTANI JUNTENKAN

Masajiro Momotani the founder of the MOMOTANI JUNTENKAN, was born in the medicinal merchant "Masakiya" who has been serving the Tokugawa dynasty of the Kishu region (present-day Wakayama Prefecture) since the Keicho Period (1615–1624). In 1885, Masajiro Momotani invented "Bigansui" lotion for his lovely wife suffering from acne. Later on, it became popular by word of mouth in all over the Japan and created a precedent for the cosmetics business. In the long history, it is trusted, proud of its achievements, and has established an unshakable solid bond with its customers for a long time. Whether it is now or in the future, we will continue to present products with reliable quality for you.
